Federal Rule of Civil Procedure 45(c), (d), (e), and (g) (Effective 12/1/13)
(made applicable in bankruptcy cases by Rule 9016, Federal Rules of Bankruptcy Procedure)

(c) Place of compliance.

(1) For a Trial, Hearing, or Deposition. A subpoena may command a person to attend a trial, hearing, or deposition only as follows:

(A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or

(B) within the state where the person resides, is employed, or regularly transacts business in person, if the person

(i) is a party or a party's officer; or

(ii) is commanded to attend a trial and would not incur substantial expense.

(2) For Other Discovery. A subpoena may command:

(A) production of documents, or electronically stored information, or things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and

(B) inspection of premises, at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) Avoiding Undue Burden or Expense; Sanctions. A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction — which may include lost earnings and reasonable attorney's fees — on a party or attorney who fails to comply.

(2) Command to Produce Materials or Permit Inspection.

(A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises — or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

(i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.

(ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) Quashing or Modifying a Subpoena.

(A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:

(i) fails to allow a reasonable time to comply;

(ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);

(iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

(iv) subjects a person to undue burden.

(B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:

(i) disclosing a trade secret or other confidential research, development, or commercial information; or

(ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

(C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

(i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and

(ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) Producing Documents or Electronically Stored Information. These procedures apply to producing documents or electronically stored information:

(A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.

(D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) Claiming Privilege or Protection.

(A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

(i) expressly make the claim; and

(ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

...
(g) Contempt. The court for the district where compliance is required — and also, after a motion is transferred, the issuing court — may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

MANNER OF PRODUCTION

1. All Documents produced to the Propounding Insurers shall be provided in either native file (“native”) or single-page 300 dpi-resolution group IV TIF format (“tiff”) format as specified below, along with appropriately formatted industry-standard database load files and accompanied by true and correct copies or representations of unaltered attendant metadata.

Where Documents are produced in tiff format, each Document shall be produced along with a multi-page, Document-level searchable text file (“searchable text”) as rendered by an industry-standard text extraction program in the case of electronic originals, or by an industry-standard Optical Character Recognition (“ocr”) program in the case of scanned paper Documents.

Searchable text of Documents shall not be produced as fielded data within the “.dat file” as described below.

2. Database Load Files and Production Media Structure: Database load files shall consist of: (i) a comma-delimited values (“.dat”) file containing: production Document identifier information, data designed to preserve “parent and child” relationships within Document “families,” reasonably accessible and properly preserved metadata (or bibliographic coding in the case of paper Documents), custodian or Document source information; and (ii) an Opticon (“.opt”) file to facilitate the loading of tiff images. Load files should be provided in a root-level folder named “Data,” images shall be provided within a root level “Images” folder containing reasonably structured subfolders, and searchable text files shall be provided in a single root-level “Text” folder.

3. Electronic Documents and Data, Generally: Documents and other responsive data or materials created, stored, or displayed on electronic or electro-magnetic media shall be produced in the order in which the Documents are or were stored in the ordinary course of business, including all reasonably accessible metadata, custodian or Document source

information, and searchable text as to allow the Propounding Insurers, through a reasonable and modest effort, to fairly, accurately, and completely access, search, display, comprehend, and assess the Documents' true and original content.

4. Emails and Attachments, and Other Email Account-Related Documents: All Documents and accompanying metadata created and/or stored in the ordinary course of business within commercial, off-the-shelf email systems, including, but not limited, to Microsoft ExchangeTM, Lotus NotesTM, or Novell GroupwiseTM shall be produced in tiff format, accompanying metadata, and searchable text files or, alternately, in a format that fairly, accurately, and completely represents each Document in such a manner as to make the Document(s) reasonably useable, manageable, and comprehensible by the Propounding Insurers.

5. Documents and Data Created or Stored in or by Structured Electronic Databases: With the exclusion of email and email account-related Documents and data, all Documents and accompanying metadata created and/or stored in structured electronic databases or files shall be produced in a format that enables the Propounding Insurers to reasonably manage and import those Documents into a useable, coherent database. Documents must be accompanied by reasonably detailed documentation explaining the Documents' content and format, including, but not limited to, data dictionaries and diagrams. Some acceptable formats, if and only if provided with definitive file(s), table(s), and field level schemas include:

A “Nativelink” entry shall be included in the .dat load file indicating the relative file path to each native file on the production media. To the extent You have other file types that do not readily or easily and accurately convert to tiff and searchable text, You may elect to produce those files in native format subject to the other requirements listed herein. Native files may be produced within a separate root-level folder structure on deliverable media entitled “Natives.”

8. Paper Documents: Documents originally created or stored on paper shall be produced in tiff format. Relationships between Documents shall be identified within the Relativity .dat file utilizing document identifier numbers to express parent Document/child attachment boundaries, folder boundaries, and other groupings.
